**TOOL CARRIER** | 3CX COMPACT GRAVEMASTER

It's a serious undertaking.

# ONE CEMETERY SOLUTION.

THE JCB 3CX COMPACT REPRESENTS A TRULY SINGLE-MACHINE CEMETERY MANAGEMENT SOLUTION, WITH THE CAPACITY TO CARRY ALL OF YOUR TOOLS IN ONE PLACE.

## Manoeuvrable.

**1** A compact size and 4-wheel steering capability means that this backhoe can reach even the tightest corners of your cemetery without too much disturbance to grounds or visitors.

## Move heaven and earth.

**2** The multi-purpose front shovel can perform many tasks on site, like moving spoil, shifting rock salt, and delivering gravel or wood chippings for ground care.

## Versatility as standard.

**3** Cemeteries require countless tools in order to run smoothly, many of which are easily attached to a 3CX Compact via front and rear quickhitches. You can therefore do anything from clearing leaves/rubbish to auguring for tree-planting, breaking rocks with a hydraulic breaker and more, minimising your need for extra machines or operators.

A handheld tool circuit with a 9m hose reel accommodates various hydraulic tools including drills, breakers, saws or even submersible pumps to clear water.

### Low emissions.

The 3CX Compact's Tier IV Final emissions-compliant engine exceeds all current requirements, minimising your environmental impact.

### Digging deeper.

You can dig to depths of 3.07m to 4.33m using the 3CX Compact's powerful excavator. This minimises both machine movement and, in turn, ground damage.

### Lifting productivity.

JCB's lifting kit allows you to raise loads easily and safely without additional equipment. There's up to 1082kgf capacity and a reach of up to 6m, so you can place and lay down headstones with minimal machine movement.

### Easy does it.

Ergonomic excavator-style controls will make all your operators feel right at home so that they can take full advantage of the multiple tool-carrying 3CX Compact.

### Always up-to-date.

Get the latest information on your 3CX Compact's fuel usage, operation, location and even service alerts direct to your desktop or phone with JCB LiveLink telematics. This enables easier machine management and security.

### Low impact.

This machine is designed to leave its mark without leaving too many marks; turf tyres minimise damage to soft ground, while optional paint colours reduce visual impact.
