

DIESEL DUMPSTER | HTD-5

JCB

**NEW
SMARTSTEP**

**INCREASED
MACHINE SECURITY**

**OPTIMISED
TRACK MOTORS**

A SMARTSTEP FORWARD IN SAFETY.

The new HTD-5 is a compact, ride-on, high-tip, diesel-powered Dumpster designed to save you time, energy and money. Our new optional SmartStep feature maximises comfort and on-site safety.

IDEAL FOR ALL INDUSTRIES

Our diesel Dumpster is ideal for the rental, housebuilding, landscaping, agricultural industries and many more.

OPTIMISED TRACK MOTORS.

New and improved track motors optimise the tracking performance allowing increased power on site, while two-speed tracking provides precision and accuracy.

SMARTSTEP SAFETY

Stepping off the SmartStep cuts power to the tracks, while still providing it to the skip and hydraulics for operational use.

INCREASED SECURITY.

We've introduced a removable JCB isolator to increase machine security by preventing unauthorised usage and theft.

EASY ACCESS

A machine width of just 706mm allows you to fit through any standard doorway or gate.

EASY TIPPING.

A high-tip capability of 1.45m makes it easy to tip directly into a high sided vehicle or high side skip.

RELIABLE POWER

A reliable Kohler engine with 4.5kW (5.9hp) of power provides a 4kph tracking speed.

DIESEL DUMPSTER | HTD-5

SPECIFICATION.

MODEL	980/D2101
Maximum carry capacity	500kg (1,102 lb)
Unladen mass	590kg (1,300 lb)
Overall height (transport position)	1,100mm (3-7 ft-in)
Load over height	1450mm (4-9 ft-in)
Maximum height (tipping position)	2,720mm (9-0 ft-in)
Engine power	4.5kW (5.9hp)
Max tracking speed	4kph (2.5mph)
Max machine width	706mm (2-4 ft-in)
Fuel tank capacity	4.3 litres (262in³)

STANDARD FEATURES.

- Two-speed tracking provides precision and accuracy at low speeds
- Higher speeds allow for quicker travel around site
- Optimised track motors for enhanced tracking performance
- Individual levers for ease of use and precise control
- Compact turning circle for easy manoeuvring
- Large carry capacity of 500kg
- Tip height of 1.45m allowing you to empty into a skip or high sided vehicle
- Machine width of just 706mm allowing you to fit through any standard doorway or gate
- Large opening panel for easy checks, servicing and maintenance
- 4.4kw (5.9 hp) Kohler diesel engine
- 1 year standard manufacturers warranty

“If it’s important to our customers, it’s important to us.”
