STAGE V

SKID STEER AND COMPACT TRACK LOADER 155, 270, 270T

Operating weight: 3121-4906kg Overall height: 1.98 - 2.10m Gross engine power: 42-55 KW (56-74 hp)

COMFORTABLY BETTER

Their unique Powerboom™ design and side entry door make JCB's skid steer and compact track loaders both stronger and safer than conventional twin arm machines, without compromise on power or performance. With a range of both wheeled and tracked models to choose from featuring vertical and radial lift options, there's sure to be a model to suit your needs.

COMFORTABLY BETTER CONTROL

With side-door entry, the largest cabs on the market, electric and adjustable joystick controls, our skid steers and compact track loaders enable maximum productivity.

COMFORTABLY BETTER VISIBILITY

The low boom profile on Hi-Viz models allows excellent visibility to both sides of the machine and the quick hitch, plus enhanced visibility to the tracks or wheels.

COMFORTABLY BETTER SAFETY

With a wide-opening side door for safe entry and exit, JCB machine operators no longer need to climb over large attachments or under an unsupported boom.

COMFORTABLY BETTER POWER

With plenty of power and versatile features, JCB sets new standards for efficiency and productivity in skid steer and compact track loaders.

COMFORTABLY BETTER PERFORMANCE

JCB skid steers and compact track loaders are built tough to handle the demands of any application and any condition.

HYDRAULICS		
In addition to the main hydrostatic drive pumps, there is a dedicated service pump for the loader and attachments (auxiliary hydraulics circuit standard flow on all base models).		
Standard flow	155	270/270T
	70 litres/min @2,450 RPM engine speed Main relief pressure 230bar (3,335psi) HYD Power Low Flow (36.0 hp)*	90 litres/min @2,300 RPM engine speed Main relief pressure 230bar (3,335psi) HYD Power Low Flow (46.7 hp)*

- Low joystick lever efforts give excellent and easy control of transmission, loader and attachments
- Auxiliary hydraulics are actuated on the joystick roller giving progressive control of hydraulic fluid flow for precise attachment control
- Loader arm hydraulic lines under protective steel guard on PowerBoom™
- Canister style, full flow, hydraulic oil filter
- JCB engine oil for engine and chain case
- JCB hydraulic oil

For arduous conditions and hostile environments solid tyres are recommended.	

CONTROLS

JCB servo control (ISO) pattern provides all drive functions on left and loader function on right joystick. The left hand control pod pivots rearwards, providing unparallelled machine entry/exit.
